

Police Station over-run by convicts

New for the 2015 season, you can look forward to a great adventure in the new LEGO® City Polizeistation, at the IMAGINATION area of LEGOLAND® Deutschland.

“Listen up, Police Cadets, we’ve got an urgent situation! Several criminals have escaped and only you can help us in time!” With these words the Police Commissioner engages rookies to help him find the escaped convicts in a daring discovery adventure.

LEGOLAND® Deutschland and Adrian Fisher Design teamed up to create the world’s first LEGO® branded Mirror Maze Adventure, which opened on the 21st March 2015.

Debuting within the this bespoke attraction is Adrian Fisher’s “Laser Zone Challenge” where, unlike a traditional laser maze, Police Cadets have to rely on their sharp reactions to navigate deliberately “failing” laser security system and escape the police cells to complete the adventure.

Dirk Schlecht from LEGOLAND Deutschland Freizeitpark GmbH said “I want to let you know that we opened the attraction successfully yesterday within our family day. I think it is really popular and guests are very satisfied.”

With a swag bag full of special effects, crafty illusions and hidden surprises around every corner, it would be a crime to miss this adventure!

Adrian added, “this has been a fantastic project with really unique theming that is interactive and fun, little Cadets can help the LEGO® policemen look for dangerous robbers in the unpredictable labyrinth. All sorts of obstacles have to be overcome during the wild chase and then the children can play with LEGO® bricks until their hearts’ content to help build up the LEGO® City.”
